**Heavy-Duty Performance & Exceptional Maneuverability
 - at a Great Price!**

Hard-Working, Reliable & Safe

Capacity - 5500 lbs

Robust construction and operational ease deliver unmatched efficiency and safety in the XM25. Designed to support up to 25% more weight than comparable models, it effortlessly transports heavy loads up to 5500 lbs. The large steering angle and responsive tiller ensure easy navigation in cramped spaces, while low-rolling-resistance drive wheels enhance maneuverability.

Load Capacity	5500 lbs.
Min Fork Height	3.35"
Max Fork Height	7.75"
Fork Width (each)	6.2"
Overall Fork Width	27"
Fork Length	48"
Steering Wheel	7.87" x 2"

XM25 - Hand Pallet Jack - \$400 + Tax & Delivery

Enhanced Safety Features:

A broad handle around the tiller and a low chassis design protect operators from hand and foot injuries. The truck has no sharp corners or edges.

Optimal Maneuverability:

Advanced ergonomics for effortless operation in tight spaces, plus a wide-handle tiller with a large 210 ° steering pivot angle.

Efficient Load Handling: Quick lift function allows the truck to reach maximum lift height twice as fast for more efficient operations.

Low Maintenance: An encapsulated hydraulic system protects against dust and dirt, and joints are fitted with bush bearings.

Improved Fork Design: Run-in rollers on the fork tip facilitate easy load handling, and pointed prongs push quickly into wrapped pallets.

Robust Chassis: Sturdy, torsion-resistant steel construction with a reinforced tiller base for extended durability and a high-grade powder coat finish for extra protection.
